REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Administrative Committee  
Revised Profit Sharing Plan for the  
Employees of the Government Employees Companies  
Washington, D.C.

We have audited the accompanying statements of net assets available for plan benefits of the Revised Profit Sharing Plan for the Employees of the Government Employees Companies (the "Plan") as of December 31, 2005 and 2004, and the related statements of changes in net assets available for plan benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2005 and 2004, and the changes in net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States.

REVISED PROFIT SHARING PLAN  
FOR THE EMPLOYEES OF THE GOVERNMENT EMPLOYEES COMPANIES

NOTES TO THE FINANCIAL STATEMENTS

Years ended December 31, 2005 and 2004

NOTE A – DESCRIPTION OF PLAN

The following description of the Revised Profit Sharing Plan for the Employees of the Government Employees Companies (the “Plan”) provides only general information. Participants should refer to the Plan document for a complete description. The Government Employees Companies (the “Companies”) include GEICO Corporation and certain of its subsidiaries.

Non-highly compensated participants may contribute up to 50 percent of earnings on a pre-tax basis and highly compensated participants are limited to 6 percent, subject to the maximum pre-tax dollar amount permitted by the Internal Revenue Code. Eligible participants may also make an additional pre-tax “catch-up” contribution as allowed by the Internal Revenue Code. No after-tax contributions may be made by any participants. At the discretion of the Board of Directors of GEICO Corporation, the Companies contribute from profits an amount to be shared by all eligible employees based on each individual’s planning center performance and earnings.

Employees automatically become eligible to make a 401(k) elective contribution to the Plan upon their date of hire and are generally eligible to receive a Company contribution after completing one year of service. Vesting is based on years of service at the following rates: 20 percent after three years, 40 percent after four years, 60 percent after five years, 80 percent after six years, and 100 percent after seven years.

Withdrawals may be made from after-tax employee contributions and vested employer contributions made prior to January 1, 1993, subject to certain restrictions. Vested employer contributions made after January 1, 1993 can only be withdrawn under hardship conditions or after attainment of age 55. Pre-tax employee contributions can only be withdrawn under hardship conditions or after attainment of age 59½.

On termination of service due to death, disability or retirement, a participant or beneficiary may elect to receive an amount equal to the value of the participant’s vested interest in his or her account in either a lump-sum amount or in monthly or annual installments which provide payments for a period certain of 5, 10 or 15 years. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

FOR THE EMPLOYEES OF THE GOVERNMENT EMPLOYEES COMPANIES

NOTES TO THE FINANCIAL STATEMENTS

NOTE A – DESCRIPTION OF PLAN - CONTINUED

The Plan allows participants to borrow funds from their vested accounts subject to certain restrictions. Payroll deductions are required to repay loans over five years or less except in the case of a mortgage-related loan which may be repaid over a period of up to fifteen years. The interest rate is fixed for the term of the loan at the commercial rate of interest charged by area banks on loans which are made under similar circumstances. When a participant terminates, any loan balance must be repaid prior to any account distribution.

Although they have not expressed any intent to do so, the Companies have the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

NOTE B – SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accompanying financial statements are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States.

Use of Estimates: Preparation of financial statements in accordance with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Investments: Investments, except for investment contracts and participant loans, are stated at aggregate fair value based upon quoted market prices. Investment contracts are stated at contract value, which approximates fair value. Participant loans are stated at their outstanding principal balances, which approximates fair value. The appreciation or depreciation in the aggregate fair value of investments is attributable to those investments stated at quoted market prices, and is reflected in the statements of changes in net assets. Net realized gains and losses on security sales are determined using the average cost of investments.

Administrative Expenses: Most administrative expenses are paid by the Companies. Other deductions include administrative expenses for record-keeping and transaction fees, which are paid by the Plan from forfeitures.
